West Germans charge Pole in spy case at U.S. embassy

STAT

Associated Press

BONN — A Polish national who worked at the U.S. Embassy here has been arrested in an espionage investigation, an embassy spokesman said yesterday.

Henryk Dimski, 48; who had worked in the embassy's financial section for five years, was arrested by West German police as part of "an ongoing investigation" of spying at the embassy, according to Joseph Braycich, an embassy spokesman.

Dimski, who previously worked in the U.S. Embassy in Warsaw, admit-

ted reporting to superiors in Warsaw on secret documents and high-ranking visitors, according to a report in today's editions of the Bild Zeitung newspaper.

Braycich, while confirming the report, declined to give details.

"He submitted his resignation to the embassy by mutual consent on Aug. 15," Braycich said.

Dimski admitted to West German police that he spied for at least two years, according to the unattributed newspaper report.
